* Only available in 145 mm version

INSTRUCTIONS FOR USE

- Before use, verify that the filter tip is securely attached to the cannula by applying a slight pulling force.
- Insert the cannula firmly into the connector attached to the suction circuit of the pneumatic or hydraulic system.
- Shape the cannula to adapt it to the patient's oral cavity.

WARNING: Reuse may result in infection and cross-contamination due to the transfer of biological material from one patient to another.
